Lead Generation

85% of consumers will use the Internet to do research before contacting a real estate agent. If you are not marketing on the Internet, you are not reaching all of your potential clients. According to a study conducted by the National Association of Realtors, **74% of consumers** will work with the first agent who contacts them. GetMyHomesValue.com helps to capture the lead at the beginning of their real estate search and puts **YOU** in touch with them first.

Veri-Lead - Our lead specialists will attempt to contact every lead to determine their real estate needs and warm them up to working with you as their agent.

Veri-Link - When a client has a real estate need, our lead specialists will attempt to directly link them to you by conference call. If you are not available to speak with them, an appointment can be set for you to meet with them to discuss their needs.

Your Pipeline - Not only is there potential for clients with immediate real estate needs, GMHV will also provide you with clients to fill your pipeline so that you have a constant source of income. Their need may not be immediate, but with proper follow up, when they need an agent, they will use you.

Exclusive Territories - Every lead that you receive through GMHV is guaranteed to be **EXCLUSIVE**. Your leads will not be recycled, nor will they be given to any other agent. You are introduced as **THE** professional in the area.

Collaborative Marketing - Since you are the exclusive agent in the area, you are encouraged to market GMHV in your zip code. Why would you market our company? Think of this as buying into a franchise. You will be the owner of GetMyHomesValue.com in your area. Any leads generated through your marketing will be screened through our Veri-Lead process and sent directly to you! GMHV can provide you with post card campaigns, door hangers, yards signs and more to generate a virtually unlimited lead flow in your area.

Month to Month - GMHV is so confident in their product that there is no need to make agents sign a long term contract. Agents return month after month because they are making money, not because they have to!

Coaching

The customer support team at GMHV wants you to be the most successful, profitable agent possible.

Coaching is a necessary step in being a successful real estate agent. The classes agents take to get their real estate licenses don't teach them how to be a good agent. Even if you've been in the business for years and feel like you've seen and learned everything, remember: even at the top of his game, Michael Jordan was ALWAYS open to being coached!

Our customer support team will walk you through the process of working with GMHV. They will help you set up your website and aid you in accessing all the resources that GMHV has to offer. They will also give you tips on following up with leads, marketing yourself as a business and will share those little extras that will make you more memorable!

“As a new GetMyHomesValue.com customer, I was tentative about paying for a lead generation service. I decided to try it out and couldn't be happier with my results!”

- Lee Adkins, GA
